Please provide brief description of the problem:

REPAIR TIMES

All repairs are performed within 48hrs or 2 business days after receipt pending any major holidays or postoffice closures.

OUR PLEDGE

We perform all repairs in house and never outsource your repair to any 3rd party vendor or supplier. We will never compromise your privacy and personal data on your device. Please understand, from time to time, a device may need to be reset to factory defaults if the LCD screen is severely damaged and is unreadable. In these events, we will contact you first and secure your permission before taking any drastic steps to compromise your personal data. If your device needs a specific service we don't offer, we will make recommendations but will not perform repairs that are beyond our scope. All repairs are a best effort and we will do all we can to ensure your device is in optimal working condition.
